Brian Luckadoo
Chief Financial Officer

Chief Financial Officer, Brian Luckadoo, joined the Alliance Center for Education accounting team as a Financial Accounting Specialist in 2007. Brian immediately leaned into the organization's restructuring activities by suggesting ways to streamline accounting processes and improve the existing financial reporting structure. These initiatives aided in improving the organization's overall financial health, provided accurate data that was used to evaluate program and service offerings, and later, similar data collection provided information used in program expansion.

Today, under Brian's leadership the organization is employing strategies to automate accounting functions to improve the accuracy of financial forecasts, and expedite forecast reporting to AC4Ed leaders - giving them the tools necessary to ensure AC4Ed program quality and implementation is always their first priority.

Prior to joining Alliance Center for Education, Brian was the Chief Financial Officer at Mission Medical Supply, where he developed and maintained a general ledger system that tracked inventory, provided cash management tools and managed debt payoff and restructuring.

Brian is a graduate of Gardner-Webb University, with a Bachelor of Science degree in Accounting and Finance.
